- Evoluzione del web
- Indymedia vs indymedia 2.0
- Social network: in o out?
  - Esiste sempre una terza via

# identi.ca

- Servizio di microblogging (max 140 caratteri)
- “Identica is Free Software, and all the data is available under the Creative Commons Attribution 3.0 license, making it Open Data”

# identi.ca

The screenshot shows the identi.ca website. At the top left is the identi.ca logo. To its right is the word "identi.ca" in a large, bold, black sans-serif font. On the right side of the page are several blue links: "Home", "Search", "Account", "Connect", "Logout", and "Help". Below these links is a sidebar with the text "Evan at Libre Planet 2009, D.C. Dentevent, Control Yourself at Gov't 2.0 Camp". The main content area features a text input field with a green border and a "Send" button. The input field has a character count of "140" and a scroll bar. Below the input field is a navigation bar with tabs: "Personal", "Replies", "Profile", "Favorites", "Inbox", and "Outbox".

The screenshot shows the KDE Akregator application window titled "Planet KDE - Akregator". The menu bar includes File, Edit, View, Go, Feed, Article, Settings, and Help. The toolbar has icons for adding feeds, saving, and deleting. The left sidebar displays a tree view of feeds categorized into All Feeds (783), Blogs (75), KDE (129), and News (337). Under News, "Planet KDE (5)" is selected. The main pane on the right lists articles from various sources. At the bottom right, there is a small graphic of a microphone and text about "KonqCasts #9-14".
